

“Get Rid of It!” Program™

What is the “Get Rid of It!” Program?

It can be whatever you need it to be regarding any old or off spec materials you want to get rid of. Here’s what we mean: Advanced Waste Services wants to be your partner in helping you dispose of or recycle your Hazardous and Non-Hazardous waste materials, quickly and properly.

What Materials?

Flammables (Liquids or Solids)	Corrosives (Acids or Bases)	Aerosols / Cylinders
Toxic Materials (Pesticides, Herbicides)	Oxidizers / Organic Peroxides	Asbestos Materials
PCB’s (Liquids or Solids)	Coolants and Oils	All Non-Haz Materials
Universal Waste (Batteries, Lamps)	Mercury (All Types)	Lab Waste (All Types)
Paints (Oil Base or Latex)	Contaminated Soils	Filter Cake

What Amounts?

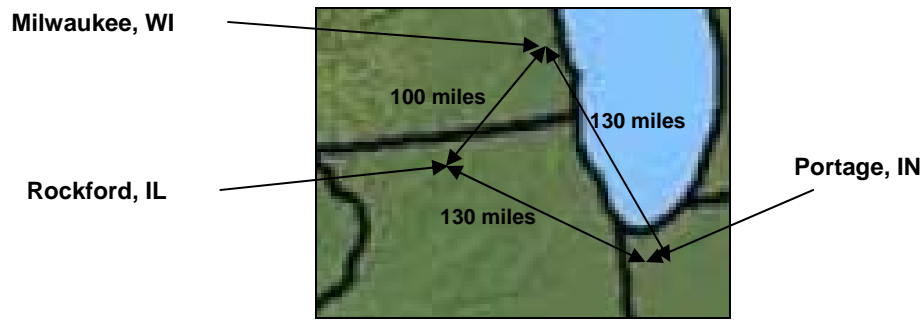

Any amount and any size. We specialize in **Lab Pack** and drum quantities, but with a fleet of Tankers, High-Vacs, Super-Suckers, Roll-Offs, and Sludge Boxes -- we can handle all your needs!

Advantages of the “Get Rid of It!” Program™ include:

- ✓ Extremely fast quotes and service
- ✓ We do all of the EPA and DOT paperwork
- ✓ Quality professionals on site
- ✓ Reliable and trustworthy transportation and disposal or recycling of your waste
- ✓ And lastly, a Partner committed to helping you with all phases of each project!

Transforming Today’s Wastes Into Tomorrow’s Resources™

Other Notable Features of AWS:

Four Locations to Serve You:

Milwaukee, Wisconsin

Rockford, Illinois

Portage, Indiana

New Castle, Pennsylvania (*Available Soon!*)

All three sites are equipped to provide you with all services. Each site also operates a Non-Haz treatment facility, and has its own fleet of vehicles and Industrial Cleaning Services Division.

To contact AWS about any of our services please call me at **(414) 397-6008**, or Email me at: kwulf@advancedwasteservices.com We appreciate every opportunity.
